Top Skills

MongoDB
Mocha (JavaScript Framework)
Nightwatch.js

Certifications

Privacy by Design - Beginners
Fine Tuning Large Language Models
Creating Responsive Web Pages using Bootstrap 4
Business Communication Excellence Program Level 4
Node.js

Anisha Jain

Technology Analyst, Infosys Ltd | 5+ Years of Experience | Web Development | JavaScript, Node, Express, React, Nestjs, Kafka, AWS, SAFe 5, SAFe 6 Certified
Pune District, Maharashtra, India

Summary

Software Developer with 4 years of experience architecting, scaling, and securing enterprise-grade server-side applications and APIs. Proficient in Node.js, Express.js, SQL, and MongoDB, with a proven ability to design resilient system architectures, optimize high-volume data pipelines, and automate backend workflows. Spearheaded mission-critical enhancements for telecom platforms monitoring 10,000+ cell sites, driving measurable gains in uptime, reporting accuracy, and operational efficiency. Recognized for delivering clean, maintainable code, mentoring junior engineers, and aligning technical execution with strategic business goals to support long-term product scalability and growth.

Technical Skills:

Backend Development: Node.js, Express.js
Frontend Development: React.js, CSS, JavaScript, Tailwind CSS
Databases: MySQL, MongoDB, Oracle DB
Testing Tools: Mocha & Chai, Nightwatch, Cucumber
Tools & Platforms: Git, Jira, Jenkins CI/CD
System Optimization: Microservices Architecture, Code Refactoring, Performance Tuning, API Development & Security: API Design, Cross-functional Collaboration & Agile/Scrum Methodologies, Strong Analytical Skills, Code Reviews, and Adherence to Best Practices, 42Crunch, Swagger API

Accomplishments:

Led backend development initiatives, creating 10+ APIs and enhancing 20+ existing ones.
Achieved 100% code coverage using Mocha & Chai, ensuring robust code quality and system reliability.

Reduced system downtime by 30% and improved page load speed by 25% by implementing microservices architecture.

Fine-tuned complex SQL queries designed to manage large datasets related to network performance and user activity which safeguarded data integrity, supported scalability, and allowed analytics teams to generate actionable insights more efficiently.

Executed code refactoring, reducing code complexity by 30% and optimizing reusability by 40%.

Conducted over 50+ code reviews, enhancing code quality, reducing technical debt, and promoting best practices.

Key Strengths:

Proven ability to optimize system performance, streamline workflows, and implement scalable solutions.

Experienced in API design, security, and automation testing, ensuring high-quality software development outcomes.

Strong analytical mindset and commitment to continuous improvement, with a focus on delivering measurable results.

Experience

Infosys

5 years 4 months

Technology Analyst | Mern Stack Developer

April 2024 - Present (2 years 6 months)

Pune, Maharashtra, India

- Designed new APIs, enhanced existing ones, improved performance by 30%, optimized code reusability by 40%.
- Executed code refactoring strategies, reducing code complexity and maintenance efforts by 30%.
- Collaborated with cross-functional teams to analyze and eliminate performance bottlenecks, optimizing system efficiency and throughput, resulting in a 30% increase in system performance and scalability.
- Conducted over 50+ code reviews and provided feedback to team members, improving code quality, promoting adherence to best practices, and ensuring system reliability and maintainability.

- Embedded automated testing frameworks (Mocha & Chai) into backend systems, boosting test coverage to 95% and lowering post-release defects by 30%.

System Engineer

June 2021 - April 2024 (2 years 11 months)

Pune, Maharashtra, India

Electronics & Instrumentation Major, currently working at Infosys Ltd with around 2 years of work experience. Aiming to implement knowledge of my skills to successfully fill the suitable role at your company. I can be relied upon to help your company grow and achieve its goals.

Education

Shri G S Institute of Technology & Science

Bachelor of Engineering - Btech, Electronics and Instrumentation engineering · (2017 - 2021)

Carmel Convent Sr. Sec. School, Neemuch

12th Standard, PCM · (April 2016 - April 2017)
